Soft and easy to condition. Top-selling colors can be blended together for endless creativity. Does not dry out and stays super soft until you bake it in your home oven.	It's Fluffy, it's Squishy, it's Light and Fun. Kids love how it feels in their hands! Lightweight, but thick pieces bake so hard that they won't crack or break. After baking, Bake Shop Light even floats, children can create their own water toys.	Soft and easy to condition. Broad color range limits need for mixing colors. Maintains sculpted detail.	Artist color palettes for precise color mixing. Holds fine details, maintains crisp lines and does not bleed. When baked, provides premium strength and flexibility. Perfect for advanced techniques like caning, mokume gane and skinner blends. This line has specialty clays like metallics, glitters, fluorescents, granite and opal.	Strong, self supporting and will not crack when baked into large creations. Best clay for stamping, alcohol markers and inks. Takes textures and maintains clean lines, does not drag when sliced. Holds fine details.	All colors - can be tinted to tweak color with alcohol based inks. Perfect for use in silicone bakeable molds. Easily add inclusions into the liquids such as glitter, flowers etc. Clear and translucent work great for image transfers.	Soft and easy to condition. Can be sanded, drilled, carved and painted after baking. Feels and looks like ceramic clay. Clear and translucent work great for image transfers.	Super Sculpey is the softest of the sculpting clays. Semi-translucent finish captures the look of flesh when baked. Super Sculpey Medium is the perfect blend of Firm and Super Sculpey. It is firm enough to hold shape but soft enough to be easily conditioned. Super Sculpey Firm is an extra firm sculpting clay. The gray color allows photographers and sculptors to see the smallest detail when sculpted. Easily carve and tool in detail with none of the blurring and bending found in softer clays. All 3 are shatter and chip resistant, take paint beautifully and perfect for fine tooling and detailing.	Professional quality specially formulated for dollmaking. Blended lines easily disappear to make smooth, realistic looking skin. Strong and durable after baking. Takes paint beautifully. Can be sanded, drilled and carved after baking.	Lightweight and extremely soft but bakes hard and won't crack or break in larger pieces. Remains flexible in thin sheets. Perfect to use as an armature and filler for larger beads. Can be sanded, drilled, and painted with acrylic paints after baking. Great clay to use on handprint ornaments and keepsakes.	Wax based clay that is easy to work with. Never dries out. Pliable and sticks to itself easily.	Air Dries. Can be painted. Easy to smooth and lightweight.	Air Dries. Can be sanded, drilled, carved and painted.
