

Sculpey®

WHERE
CREATIVITY
TAKES
SHAPE

polyform®

Where creativity takes shape!

Polyform Products® Company has been bringing Sculpey® products from our home in Elk Grove Village, IL to yours for over 50 years. All of our oven-bake clay and liquid polymer clay is made in the USA!

Our oven-bake clays have become one of the most desirable craft clays on the market today. An entire culture has sprouted around this amazing medium - web sites, newsgroups, Etsy businesses and clay retreats. As the market leader, we focus on creating new ways to stimulate and encourage creativity, no matter your experience level.

Sculpey® - Where creativity takes shape! This is our mantra here at Polyform® and we are continually striving to bring innovation, inspiration and creativity to crafters of all ages and skill levels.

Vision

A world where everyone has the courage to express themselves creatively through crafting.

Mission

To inspire and empower people to realize their creative potential through inspiration, education and high quality products.

Please visit our website at www.sculpey.com to learn more about our products and the creative world of oven-bake clay!

ADD CLAY SHAPES TO YOUR HOLIDAY CARDS

9.

MAKE THE TREND! CLAY CAN BE USED ON PLANNERS, WOOD SIGNS AND GLASS MASON JARS!

10.

CLAY IS A FUN AND EASY MEDIUM FOR KIDS! GIVE THEM A BREAK FROM THEIR SCREENS BY HAVING THEM CREATE WITH CLAY!

Sculpey®

Original Sculpey®

America's first oven-bake clay is known for its soft easy-to-use texture, lasting strength and easy clean up. Original Sculpey® has been a favorite of kids, parents and teachers for generations.

Original Sculpey® is soft and easy to sculpt, making it perfect for beginners! It stays soft until baked in a home oven and can be re-baked, making it ideal for sculpting in sections. Once baked, Original Sculpey® can be sanded, drilled, carved or painted with acrylic paints.

S01 White 1 lb (454 g) | S01GR Granite 1 lb (454 g)
S01T Terra Cotta 1 lb (454 g)

S2 White 1.75 lb (794 g)
S2T Terra Cotta 1.75 lb (794 g)

S375 White 3.75 lb (1.7 kg)

S8 White 8 lb (3.6 kg) | S8T Terra Cotta 8 lb (3.6 kg)
S24 White 24 lb (10.9 kg) - BULK BUY

- Does not air dry
- Remains soft and flexible until it is baked in your home oven
- After baking, it can be sanded, drilled, carved and painted with water-based acrylic paints

Super Sculpey® is a unique ceramic-like sculpting compound that is oven-bakeable. Super Sculpey® clay is loved by artists, doll makers and animation studios around the world. Shatter and chip resistant, it can be carved, sanded, drilled and painted after baking.

SS1 Beige 1 lb (454 g)

SS8 Beige 8 lb (3.6 kg) SS24 Beige 24 lb (10.9 kg) - BULK BUY

- The softest of the Super Sculpey® sculpting clays
- Semi-translucent finish which captures the look of flesh when baked
- Shatter and chip resistant
- Takes paint beautifully for an amazing finished piece look

- The softest of the Super Sculpey® sculpting clays
- Semi-translucent finish which captures the look of flesh when baked
- Shatter and chip resistant
- Takes paint beautifully for an amazing finished piece look

LW2001 Super Sculpey ULTRALIGHT™

- Our lightest weight clay available - it even floats in water!
- Extremely soft and easy to knead
- Stays flexible in thin sheets which make it great for paper crafting
- Perfect for armatures and cosplay
- Replacement clay for Keepsake frame and ornament kits

SSMED1 Gray 1 lb (454 g) Super Sculpey MEDIUM™

- Perfect blend of both Super Sculpey® and Super Sculpey Firm™
- Firm enough to hold its shape, yet soft/malleable enough to comfortably build/shape and blend pieces together allows the consumer to carve detail into their piece easily
- This clay allows you to use build up methods that are more additive and focused on building out shapes in small increments. Once the clay has been kneaded slightly, it is highly malleable and ready to blend. Cuts down on sanding time because it blends so smoothly
- Shatter and chip resistant

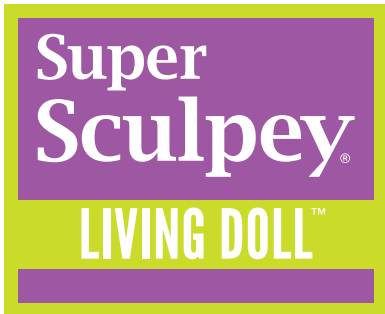

SS1SCULPT Gray 1 lb (454 g) Super Sculpey FIRM™

- Perfect for fine tooling and detailing characteristics in your piece
- Gray color allows for shadows to be seen more easily and therefore more detail and accuracy can be achieved in a sculpture
- Shatter and chip resistant
- Great for both small and large scale sculptures because of its ability to hold detail
- Takes paint beautifully for an amazing finished looking piece

Sculpey®

This professional quality oven-bake clay is formulated for easy blending and bakes to a semi-translucent skin tone. Three different skin tones allow you to blend your perfect shade! Super Sculpey® Living Doll™ is perfect for fine tooling and creating detailed characteristics. This clay can be sanded, carved, drilled and painted after baking.

ZSLD1 Beige 1 lb (454 g)

ZSLD3 Light 1 lb (454 g)

ZSLD4 Baby 1 lb (454 g)

- Semi-translucent skin tone look after baking
- Takes paint beautifully for an amazing finished piece look
- Perfect for fine tooling and detailing characteristics in your piece
- Blends easily with no seams
- Can be sanded, carved and drilled after baking

Sculpey®

Sculpey® Bake Shop®

Make. Bake. Play! Sculpey® Bake Shop® oven-bake clay is perfect for kids and includes clays that erase, glow, and bend - there is something for everyone! Oven-bake clay is the perfect way to get kids to turn off their electronics and turn on their imaginations!

- The perfect way to celebrate babies first Christmas or makes a great gift for baby showers
- Deluxe Kit includes: Keepsake clay, roller, ribbon, shaping ring, detail tool and instructions
- Superior to Air Dry Clay: Shatterproof, more detailed impression, bakes in 30 minutes vs. 24+ hour dry time

LIQUID SCULPEY®

VS

RESIN

Liquid Sculpey® doesn't have a strong odor.

Resin has a strong odor that stays until it cures.

Liquid Sculpey® doesn't set up until you bake it, giving you as much working time as you need.

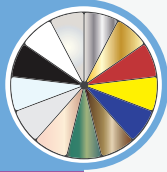

Resin begins curing as soon as you mix the 2 parts together.

Bake Liquid Sculpey® in your home oven for only 15-30 minutes to cure.

Resin takes at least 24 hours or longer to cure.

Liquid Sculpey® comes in 13 colors.

Adding color to resin requires an additional purchase and step.

Apply Liquid Sculpey® to raw clay - once absorbed, it creates a beautiful new look that can be textured or transferred onto other creations.

Not possible with resin.

Adding eye screws to Liquid Sculpey® jewelry after baking is very easy to do because the material is so flexible.

Adding eye screws to cured resin is difficult and may result in breakage.

Free-hand draw and make window clings easily with Liquid Sculpey®.

Resin does not work for these applications due to its viscosity and will not cling to windows.

Sculpey®

Liquid Sculpey®

Liquid Sculpey® is a polymer clay that starts out as a liquid and bakes into a strong, flexible, lightweight finished piece! It is extremely versatile - can be used in used in jewelry making, home decor, window clings, as grout in mosaics and much more!

Sculpey®

ECC02 Oven-Bake Clay Softener

- Transforms the texture of firm clay into the perfect soft, smooth consistency
- 2 oz (57 g)

ASSD Thinner & Clay Softener

- Easy to use, add just a few drops to Sculpey® products and mix
- Improves the texture of firm or crumbly polymer clay
- Use with the Liquid Sculpey® line to achieve a thinner consistency
- 1 fl oz (30 mL)

ABB02 Bake & Bond

- Provides a very strong bond to adhere raw clay to raw clay, raw clay to baked clay and porous surfaces like paper, wood or canvas
- Must be baked to adhere
- 2 fl oz (59 mL)

ASG33G Gloss Glaze

Adds a durable seal or finish to baked clay items
Compatible with acrylic, waterbased finishes
1 fl oz (30 mL)

ASG33M Satin Glaze

SPECIALTY

Sculpey Tools™

With Sculpey Tools™ and Accessories, you are covered for all of your rolling, cutting, etching, smoothing and detailing needs plus more. Designed specifically for ease of use, these tools meet the needs of all polymer clay users from beginners to experienced artists.

ACG1 Clay Extruder

- Indispensable tool has 19 interchangeable discs for making clovers, ropes, grass, hair and more
- Made from die-cast steel, it provides a simple way to add textural details to your project
- Easily disassembles for cleanup

ASBSET Clay Blades

- Includes comfort grip handles to protect hands from sharp blades
- Long, rigid blade sections clay and trims wide sheets
- Flexible blade cuts curves
- Clay blade trims sheets and adds details

AS8AR Acrylic Roller

- Seamless Acrylic Roller smooths without leaving roller marks
- 7.75 in (20 cm) width is perfect for rolling large sheets
- Clear acrylic roller will not block vision of clay below
- Easy-to-clean roller has a non-stick surface

AS2055 Work 'n Bake Clay Mat

- Non-skid silicone
- Bake your projects right on the mat

ASESSKIT Essential Tool Kit

- A collection of 11 tools made specifically for working with oven-bake clay
- Great for beginners, makes a wonderful gift

ABPS 8 pc Clay Tool Set

- Set includes 8 functional tools: potter's rib, steel scraper, wooden modeling tool, needle, ribbon and loop tools, wire clay cutter and sponge
- Perfect for cutting, shaping, sculpting and detailing oven-bake clay before baking

AS2174 Sculpey Clay Conditioning Machine

- Stainless steel rollers
- 9 thickness settings
- Non-Skid feet
- Use as a faster and easier alternative to making flat sheets of clay vs. using an acrylic roller

BASICS

ASSD01 Dual-End Tools

- A sleek-looking set of double-ended tools with metal ball ends for shaping clay and flexible tips for smoothing and blending clay (5mm, 7mm, 8mm sizes)
- Use metal ball ends to make indentations, concave forms and create curled or wavy edges (2mm, 6mm, 12mm sizes)

ASCT01 5-in-1 Tool

- A multi-purpose tool set that includes five interchangeable heads; Blade, Needle Tool, Metal Ball End and two Flexible Shapers
- Unique magnetic design makes switching tool heads quick and easy. The head storage base allows you to keep all of the heads organized and in one place
- Blade Tool creates lines, fine details and cut clay
- Cone Tip Flexible Shaper shapes and smooths clay, blends seams, creates textures and patterns
- Chisel Tip Flexible Shaper forms thin lines and patterns, smooth clay and blend seams
- Metal ball end creates indentations, concave forms and creates curled or wavy edges
- Needle Tool creates lines, small holes, textures, fine details and patterns

ASCTV01 Clay Tool Starter Set

- A set of 3 double-ended tools, each used for a wide range of projects and techniques
- Needle Tool creates lines, small holes, textures, fine details and patterns
- Stamp End adds detail
- Blunt Point for small scale sculpting, punching holes, shaping, refining and smoothing clay
- Ball End creates indentations, concave forms and curled or wavy edges
- Knife End creates lines, patterns and cut clay
- Flat End easily smooths, blends and adds patterns and details to clay

ASETPL Etch 'n Pearl

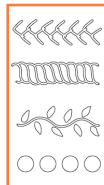

- Functional points and different sized rods for piercing and baking beads
- Etch detail into clay pieces
- Create three sizes of pearls with concave ends
- Use to pierce your beads before baking

ASTWLO1 Texture Wheel

- One handle with four interchangeable design wheels: Rope, Vine, Feather Stitch and Pearl
- Wheels roll freely to create continuous patterns
- Ideal for creating borders in clay

FORMING

AS2020 Hollow Bead Maker

- Creates the perfect dome for a variety of hollow bead sizes
- Includes five different dome sizes: 0.75", 1", 1.25", 1.5", 1.75" (1.9 cm, 2.5 cm, 3.1 cm, 3.8 cm, 4.4 cm)
- Make both halves of the same size bead at one time
- Sized to perfectly match the Sculpey® graduated circle cutter set (see page 21)
- Bake right on the Sculpey® Hollow Bead Maker

AS2035 Bead Maker

- Makes 3 different sized beads: 13 mm, 16 mm, 18 mm
- Measuring cups guarantee a perfectly sized bead every time
- Easy to use, makes beads in seconds!

AS2030 Bead Baking Rack

- The bead baking rack is ideal for baking multiple beads at one time
- Beads bake evenly and perfectly shaped - no risk of flat bottomed beads

Create beautiful, one-of-a-kind beads with Sculpey's® assortment of bead making accessories. Now measuring, rolling and baking perfect beads are as easy as 1,2,3 with the Sculpey® Bead Maker and Bead Baking Rack.

BEADING

14+

AS2050 Bead Making Kit

- The Bead Making Kit provides all the essential tools needed to start making beautiful beads
- Includes all the tools you need from start to finish
- Bonus storage pouch is perfect for on the go crafters
- Kit includes: Clay Baking Cushion, 400 and 800 Grit Sandpaper, Blade, Roller, Metal Cutter, Needle Tool, Storage Pouch, Lentil Bead Tool, Bead Making Guide

AS2010 Wet/Dry Sandpaper

- Includes two each of the following grits: 400/600/800/1000
- Sandpaper is an easy and fast way to add a beautiful finish or texture to any of your projects

BEADING

AS2001
Silkscreens - Nature

AS2003
Silkscreens - Floral

AS2005
Texture Sheet - Nature

AS2007
Texture Sheet - Geometric

Silkscreens:

- Each pack comes with two reusable silkscreens and one squeegee
- Silkscreens are 6" x 4.5"
- For use with acrylic paint
- Pairs perfectly with Sculpey® circle cutters and Hollow Bead Maker

Texture Sheets:

- Each pack comes with Two reusable texture sheets
- Size 6 1/8" x 5" - perfectly sized to go through a Clay Conditioning Machine
- Each pattern is repeatable, perfect for making large sheets of patterns
- Transparent color allows you to easily see where you are placing the texture

- Silkscreens and Texture sheets are easy to use for all skill levels
- Quickly and easily add intricate designs and creative flourishes to any of your projects

EMBELLISH

REPLACEMENT PARTS

Baking Instructions

Start with clean hands and work area. Knead clay until soft and smooth. Shape clay, pressing pieces together firmly. Bake on the Sculpey® Oven-Safe Work Mat, oven-proof glass, or metal surface at 275 °F (130 °C) for 15 minutes per 1/4 in (6 mm) of thickness. **DO NOT USE MICROWAVE OVEN. DO NOT EXCEED THE ABOVE TEMPERATURES OR RECOMMENDED BAKING TIME.** Baking should be completed by an adult. Wash hands after use.

Changing the Consistency of Clay

Sculpey® clays have the unique ability to be made as firm or as soft as you like. To make your clay softer, simply add a few drops of Sculpey® Thinner & Clay Softener or pinch off a little piece of the Sculpey® Solid Clay Conditioner and add to a handful of clay and knead until mixed. To make your clay more firm, leach the clay by following the steps below:

1. Roll your clay into a sheet.
2. Sandwich your flat clay between 8-10 sheets of plain white copy paper.
3. Place a weight on top your clay and allow to sit for 1-24 hours, check clay periodically.
4. When you are done, you will have clay that is the perfect consistency for you!

Baking Table:

Use this table to determine how long and at what temperature your clay should be baked. Always use an oven thermometer to confirm that the temperature in the oven is the same as that shown on the dial.

PRODUCT	TEMPERATURE	TIME PER THICKNESS
Original Sculpey®	275 °F (130 °C)	15 min / 1/4 in (6 mm) thickness
Super Sculpey®	275 °F (130 °C)	15 min / 1/4 in (6 mm) thickness
Sculpey III®	275 °F (130 °C)	15 min / 1/4 in (6 mm) thickness
Sculpey Premo™	275 °F (130 °C)	30 min / 1/4 in (6 mm) thickness
Sculpey® Soufflé™	275 °F (130 °C)	30 min / 1/4 in (6 mm) thickness
Sculpey Bake Shop™	275 °F (130 °C)	15 min / 1/4 in (6 mm) thickness
Sculpey Bake Shop™ Bendy Clay	285 °F (130 °C)	20 min / 1/4 in (6 mm) thickness
Sculpey Bake Shop™ Eraser Clay	250 °F (121 °C)	20 min / 1/2 in (6 mm) thickness
Sculpey Bake Shop® Light™	275 °F (130 °C)	15 min / 1/4 in (6 mm) thickness
Liquid Sculpey®	275 °F (130 °C)	15 min / 1/4 in (6 mm) thickness
Liquid Sculpey® Clear	300 °F (149 °C)	15 min / 1/4 in (6 mm) thickness

*For projects thicker than 3 in (76mm), bake for one hour. Baking time should not exceed one hour.

NOTICE!

Many modeling clays contain ingredients that may stain or damage finished surfaces. Do not place unbaked clay on furniture, flooring, plastic, carpeting or fabric. Protect finished surfaces by using unbaked Sculpey® clay products on the Sculpey® Oven-Safe Work Mat, a glass or metal surface or use disposable foil or wax paper beneath your work.

Product Quality

Polyform Products® Co. Inc. manufactures all of our oven-bake clays in the United States, each of which can be baked safely in your home oven or toaster oven. Every product manufactured or sold by Polyform® is of the highest quality. Safety is and always has been our number one priority. All Sculpey® products are free from wheat, gluten, sulfur, dairy, nuts, and latex. Our products are never tested on animals.

Pre-Baking Test

The accuracy of home oven temperatures may vary significantly and will affect the baking of your clay. Always use an oven thermometer to confirm that the temperature in the oven is the same as that shown on the dial. To test temperature of oven prior to baking your finished piece, always use the following test.

- Pinch off a small ball of clay.
- Shape a disc that is 1/2 in (12 mm) in diameter and approximately 1/4 in (6 mm) thick.
- Refer to instructions for baking time and temperature.
- Remove from oven and check color. Any darkened areas indicate that your oven is too hot.

1/2 in
(12 mm)
